

ADITYA SOLANKI

Full Stack Developer · Java · Spring Boot · React · Microservices

Noida, UP | +91-7599525631 | aditya.s.solanki9536@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer skilled in building responsive frontend applications and secure backend systems using React, Java, Spring Boot, REST APIs, MySQL, Redis, Spring Security, and JWT. Hands-on experience with Microservices architecture using Eureka Service Discovery, Spring Cloud Gateway, and Feign Client. Strong foundation in Core Java, OOP, collections, exception handling, layered architecture, and API integration. Delivered 4 production-deployed projects covering authentication, role-based access, database persistence, admin workflows, Redis caching, and clean UI design.

TECHNICAL SKILLS

Languages: Java (Java 8+), JavaScript (ES6+), HTML5, CSS3

Microservices: Eureka Server, Spring Cloud Gateway, Feign Client, Config Server

Concepts: OOP, MVC, Layered Architecture, Microservices Architecture, RBAC, API-first Design

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT

Database/Cache: MySQL, Redis (caching & session), Spring Data JPA ORM

Testing/Docs: Postman API Testing, Swagger/OpenAPI basics, Logging & Debugging

Frontend: React, Redux Toolkit, Redux Saga, React Router, Bootstrap, Material UI, Responsive Design

DevOps & Tools: Git, GitHub, Maven, IntelliJ IDEA, VS Code, Render, Netlify, Railway, Postman

AI Tools: ChatGPT, Claude, GitHub Copilot, OpenAI Codex

PROJECTS

Banking Management System

Live: bankingsystem-34mb.onrender.com

[Java](#) · [Spring Boot](#) · [Spring Security](#) · [Thymeleaf](#) · [MySQL](#) · [JWT](#) · [REST APIs](#) · [Spring Data JPA](#)

- Built secure banking app with 10+ modules: registration, login, dashboard, balance enquiry, deposits, withdrawals, fund transfers, transaction history, and PDF statement export; deployed live on Render
- Implemented Spring Security with role-based access (User/Admin), session-based login for web pages, and JWT authentication for all protected REST API endpoints; designed and normalized 8+ MySQL tables via Spring Data JPA
- Developed full admin module for user management, account blocking, password updates, transaction monitoring, and loan processing; built loan lifecycle (application → EMI calculation → payment tracking → audit records), reducing manual steps by ~60%

Journal App Backend System

[Java](#) · [Spring Boot](#) · [Spring Security](#) · [Redis](#) · [JWT](#) · [Eureka Server](#) · [Spring Cloud Gateway](#) · [Feign Client](#)

- Architected 3-tier REST backend (Controller → Service → Repository) with DTO-based request/response handling, input validation, and centralized exception handling; secured 6 CRUD endpoints with JWT auth and role-based authorization
- Integrated Eureka Service Discovery for inter-service registration, Spring Cloud Gateway for API routing, and Feign Client for declarative HTTP communication; added Redis caching to reduce DB reads by ~40%

Smart News App

Live: smartnewsbyadi.netlify.app

[React](#) · [Vite](#) · [JavaScript \(ES6+\)](#) · [NewsAPI](#) · [React Router](#) · [Bootstrap](#)

- Built responsive news aggregator with NewsAPI integration for real-time article fetching across 10+ categories; implemented keyword search, multi-language support via URL query params, and infinite scrolling — reducing initial data load by ~70%
- Designed mobile-responsive reusable components (Navbar, NewsCard, Footer) with fallback images, source attribution, publish dates, and external deep-links; deployed on Netlify

E-Commerce Web App

[React](#) · [Vite](#) · [Redux Toolkit](#) · [Redux Saga](#) · [React Router](#) · [Bootstrap](#) · [Material UI](#)

- Developed responsive e-commerce SPA with modular component-based React architecture; used Redux Toolkit + Redux Saga for scalable async state management and React Router for client-side navigation
- Integrated product sections, carousel/slider, toast notifications, and form validation; delivered pixel-accurate responsive layouts across mobile, tablet, and desktop using Bootstrap and custom CSS

EDUCATION

Bachelor of Computer Applications (BCA) — IIMT University, Meerut

2022 – 2025

Core: Data Structures, OOP, DBMS, Web Technologies, Computer Networks, Software Engineering

Class XII, PCM, CBSE — Delhi Global School, Mawana, Uttar Pradesh

2021

STRENGTHS

Problem-solving mindset · Quick learner · Full-stack project ownership · Clean code practices · API-first thinking · Strong debugging approach · Self-directed builder
